

# Come together

(Musik + Text: Sanni Risch 1999)

It's not too late  
To find each other  
For a better understanding

It's not enough  
To tell everyone  
I will

It's better to say  
I do  
Right now

You have also eyes  
To see what happened  
To our kids in the past

Never again  
I want to see  
A crying child

Come together  
For the children in the world  
For the happiness of them

Come together  
They are looking at us  
They want answers from us

Come together  
It's now the right time  
Take their hands

and

Come together

They belong to us  
We should be there for them  
Everyday of our life

Why are always  
The children of us  
The last

It exists a right of life  
It exists a right of love  
For them

You have also ideas  
To create a better world  
~~To~~ <sup>For</sup> our kids in the future

Never again  
I want to see  
A crying child

Come together  
For the children in the world  
For the happiness of them

Come together  
They are looking at us  
They want answers from us

Come together  
It's now the right time  
Take their hands ... and

Come together  
For the children in the world  
For the happiness of them

Come together  
They are looking at us  
They want answers from us

Come together  
It's now the right time  
Take their hands

and

Come together
