

The same sun

(Musik + Text: Sanni Risch 2002)

REFRAIN

We live all under the same sun
We love all in the same language
We look all up to the same sky
We cry all over the same old things
If you think
You'll be a better one
Look just one moment to the sky
What you see is always the same sun
Wherever you are looking from

Don't think
You're really special
Only because
You've got much money
Don't think
you are the greatest
You are not
